MONOLITH

LARGE PORCELAIN SLABS

The Monolith collection goes beyond standard space, offering a brand new dimension and opening up limitless arrangement possibilities. Their simplicity and sophisticated style is truly impressive. They exploit the potential of the large format and come in 4 types of finishing and 2 thicknesses. The new collections reflect the richness of austere textures and colours, delighting with a play on contrasts and unique designs. They combine harmony and apparent chaos when they draw on the beauty of washed-out, worn-out patterns. They are audacious and non-obvious when highlighting the beauty of damaged surfaces and corroded metals. They re-interpret the decorative structure of stone, ideally reflecting the minimalist image of nature.

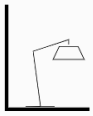
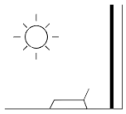
APPLICATION & PROPERTIES OF MONOLTIH TILES

APPLICATION

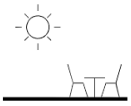
The MONOLITH gres slabs are a good solution outdoors and indoors alike, on walls and on floors, on facades and as covering of kitchen table tops or furniture.



WALLS AND FLOORS



THE FACADE

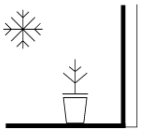


THE TERRACE, THE BALCONY

FURNITURE, TOPS

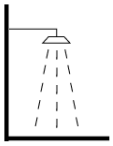
THE PROPERTIES OF MONOLITH TILES

The MONOLITH slabs are extremely resistant to water, stains, high temperature, frost and abrasion. They owe their versatile functionality also to the exceptional aesthetic properties and the ability to transform any difficult location. The large format indicates a small amount of grout i.e. an impression of a nearly solid surface.

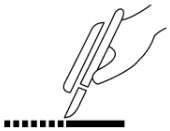


FROST RESISTANCE

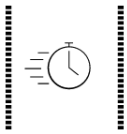
ABRASION RESISTANCE



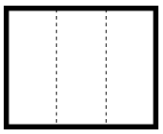
WATER RESISTANCE



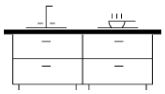
EASY TREATMENT



QUICK ASSEMBLY



A SMALL AMOUNT OF GROUT



STAIN RESISTANCE

TEMPERATURE RESISTANCE
